Subject: Planning meeting

Dear All:

We have a call scheduled today from 4 to 5 to plan for Dr. Throckmorton's visit with us on Thursday. I've drafted an agenda (see below) for discussion on our call. I want to emphasize that the goal of our meeting is to present and discuss the PCF REMS recommendations. The agenda reflects that goal. I've also included a discussion item on the recent Advisory Committee recommendations.

I think that it is important to use the time we have to articulate and explain our recommendations and the ideas behind these recommendations.

It will be tough to keep to the agenda suggested below but I hope that we can be successful in getting through our recommendations and engaging Dr. Throckmorton in a discussion about ways to improve the quality and access to pain care.

DRAFT Agenda:

1. Welcome and introductions (10 minutes) Will and group
2. Explanation of the Pain Care Forum and REMS Task Force (Will) 5 minutes
3. Dr. Throckmorton—FDA REMS process and comments ---20 minutes
4. PCF Recommendations: (35 minutes)
 - Keeping the process information driven (assign presenter)
 - Size of class: all opioid vs. long acting/transdermal/methadone (assign presenter) (Recommendation about abuse resistant product reviews/approval)
 - Tying educational "certification" process to DEA registration (assign presenter)
 - Educational programming developed by pain education and patient education experts representing principal organizations (assign presenter)
 - Given the size of the effort and the current lack of information about "what works," we should phase-in the REMS program allowing for learning and program improvement before full implementation (assign presenter)
5. Perspective of persons living with pain---the big picture including NSAIDS, Vioxx, opioids, REMS, and now acetaminophen, and medical devices for pain relief (Will, 5 minutes)
6. Recent panel recommendations, concerns and implications (assign presenter) 15 minutes
7. Discussion and defining how to work together to produce best outcomes for people living with pain (All, 30 minutes)

Reminder: The planning call will take place from 4 to 5 ET. The call-in #: 888 477 8316. The participant code is: 803885#.
